What sets us apart and what you'll take away:

- World class supervisors and colleagues
- Meaningful professional relationships and networks
- Clinical expertise in areas of specialty interest
- Encouragement and support to pursue passions and professional pathways of interest
- Lived experience working within the dynamic environment of private practice
- Support throughout the licensure process
- Pipeline to ongoing work in private practice at the Ross Center (DC, VA, or NY)
- Administrative support so you can focus on what matters most to you

RossCenter.com

## We are Looking for Candidates Who:

Have completed an APA-accredited doctoral program and pre-doctoral internship with an emphasis on prior training in either child/adolescent or adult psychology. Special consideration for individuals who are:

- Looking to plant roots and grow with us open to working toward licensure in DC, Virginia, and preferably, Maryland
- Passionate, enthusiastic learners interested in exploring a career in private practice
- Compassionate and committed to providing comprehensive clinical services, with focus on individual and group therapy
- Collaborative, critical-thinking team members who appreciate the value of integrated care
- 66 Our fellowship program is where training truly meets real-world practice. We offer the flexibility and autonomy of private practice with the support, structure, and depth of training that is desirable at this pivotal point in your career. ??
  - ~ Andrea Biel, PsyD, Director of Psychology Postdoctoral Fellowship Program

- As a postdoctoral fellow at the Ross Center, I have learned how to effectively manage a caseload while receiving support from colleagues and supervisor as needed. As a recent graduate, it has been essential for my growth and confidence to practice independently in order to learn more about myself and my clinical judgement. Having a team that supports my interests as well as my well-being has been incredibly beneficial too. ??
  - ~ <u>Tolu Ojovevi, PsvD</u>, Current Postdoctoral Fellow

## Application Deadline: Applications accepted on a rolling basis until position is filled.

The following materials must be included with submission of application: cover letter, curriculum vitae, three (3) Letters of Recommendation (one must be from internship supervisor), and a de-identified recent neuropsychological/psychological report. Please submit materials and direct any questions or concerns regarding the application and interview process to Dr. Andrea Biel (abiel@rosscenter.com)
