The Ross Center Difference

What sets us apart and what you'll take away:

- World class supervisors and colleagues
- Meaningful professional relationships and networks
- Clinical expertise in areas of specialty interest
- Encouragement and support to pursue passions and professional pathways of interest
- Lived experience working within the dynamic environment of private practice
- Support throughout the licensure process
- Pipeline to ongoing work in private practice at the Ross Center (DC, VA, or NY)
- Administrative support so you can focus on what matters most to you

We are Looking for Candidates Who:

Have completed an APA-accredited doctoral program and pre-doctoral internship with an emphasis on prior training in either child/adolescent or adult psychology. Special consideration for individuals who are:

- Looking to plant roots and grow with us – open to working toward licensure in DC, Virginia, and preferably, Maryland
- Passionate, enthusiastic learners interested in exploring a career in private practice
- Compassionate and committed to providing comprehensive clinical services, with focus on individual and group therapy
- Collaborative, critical-thinking team members who appreciate the value of integrated care

From Us to You:

“ Our fellowship program is where training truly meets real-world practice. We offer the flexibility and autonomy of private practice with the support, structure, and depth of training that is desirable at this pivotal point in your career. ”

~ Andrea Biel, PsyD, Director of Psychology Postdoctoral Fellowship Program

“ As a postdoctoral fellow at the Ross Center, I have learned how to effectively manage a caseload while receiving support from colleagues and supervisor as needed. As a recent graduate, it has been essential for my growth and confidence to practice independently in order to learn more about myself and my clinical judgement. Having a team that supports my interests as well as my well-being has been incredibly beneficial too. ”

~ Tolu Ojoyeyi, PsyD, Current Postdoctoral Fellow

“ Working as a postdoctoral fellow at the Ross Center has been a wonderful, rewarding experience. The mentorship I have received here has been invaluable in supporting my confidence and reinforcing my clinical skills as I learned to navigate a full-time caseload and moved towards licensure. The Ross Center provided excellent scaffolding through training, supervision and diverse experiences. I highly recommend this postdoctoral fellowship to trainees who are eager to grow their clinical skills, assessment knowledge, and professional network while making a meaningful impact in the DMV community. ”

~ Phoebe Long, PhD, Postdoctoral Fellow (2023-2024)

Application deadline : December 23, 2024

Early applications are encouraged and will be reviewed on a rolling basis. All applicants must complete the online application process for our positions through the national APPA CAS system. The following materials must be uploaded in APPA CAS: cover letter specifying the focus area of interest, curriculum vitae, three (3) Letters of Recommendation (one must be from internship supervisor), and a de-identified recent neuropsychological/psychological report. Please feel free to e-mail Dr. Andrea Biel (abiel@rosscenter.com) with any questions or concerns.
